MEMORANDUM FOR: ASSISTANT CHIEF OF STAFF, G-2,
DEPARTMENT OF THE ARMY

SUBJECT: Relationship of CIA Personnel and Service Attaches
in the Field

REFERENCE: (a) Memorandum from AC of S, G-2, dated 5 June 1951,
SD-31111, G2-IRqut0, to the Secretary, IAC

1. CIA believes that it is desirable, as you suggest, to define the field relationships between CIA personnel and Service Attaches and that the problems you list are in general the ones which are to be solved.

2. In order to develop recommended policy directives which would clarify these relationships it is proposed that this office should bring together representatives of the Intelligence Agencies of the Departments of the Army, Navy, and Air Force to develop the necessary policy directives. As a means of quickly getting on with this task this Agency will distribute to the Military Intelligence Agencies tentative proposals as the starting point for discussions. It is my intention to distribute this paper within a week and a meeting will be called shortly thereafter.

3. The foregoing procedure is proposed as an alternative to submitting this problem to the IAC. It is believed that these problems do not concern the FBI and the AEC and that the concern of the Department of State will be peripheral. If, as we work along, the interest of the Department of State is clearly pointed up with respect to specific problems it is proposed that the Department would be brought in on those problems only.

4. Copies of this memorandum are being disseminated to the Directorate of Intelligence, Air Force, and the Office of Naval Intelligence. It is requested that the Service Agencies call my office, [redacted] stating their concurrence or nonconcurrence with this proposal.
